

Merry-go-Round Storytelling's Paper Puppet

This simple Template can make a Monster, Troll, Alien or Wild Thing Puppet!

How to use this template.

1. Use the shapes on Page 2 as a guide to draw and design your own Monster, Troll, Alien or Wild Thing.

The shapes are drawn faintly so the lines will not be visible on your design.

The Circle is the head

The Rectangle is the body

The Ovals are the hands and feet.

2. Once you have drawn and coloured in your design. Cut it out!

3. Join the body parts together with elastic, ribbon, string or anything floppy you can find. These will become the arms and legs!

Join the arms and legs to the body with Sellotape. They can be any length you like.

4. Sellotape some elastic to the top of the head to give it a bit of bounce and

Ta-Da! You have a puppet!

Please watch my 'How to make a simple puppet out of paper' video on YouTube at Merry-go-Round Storytelling for further explanation:
